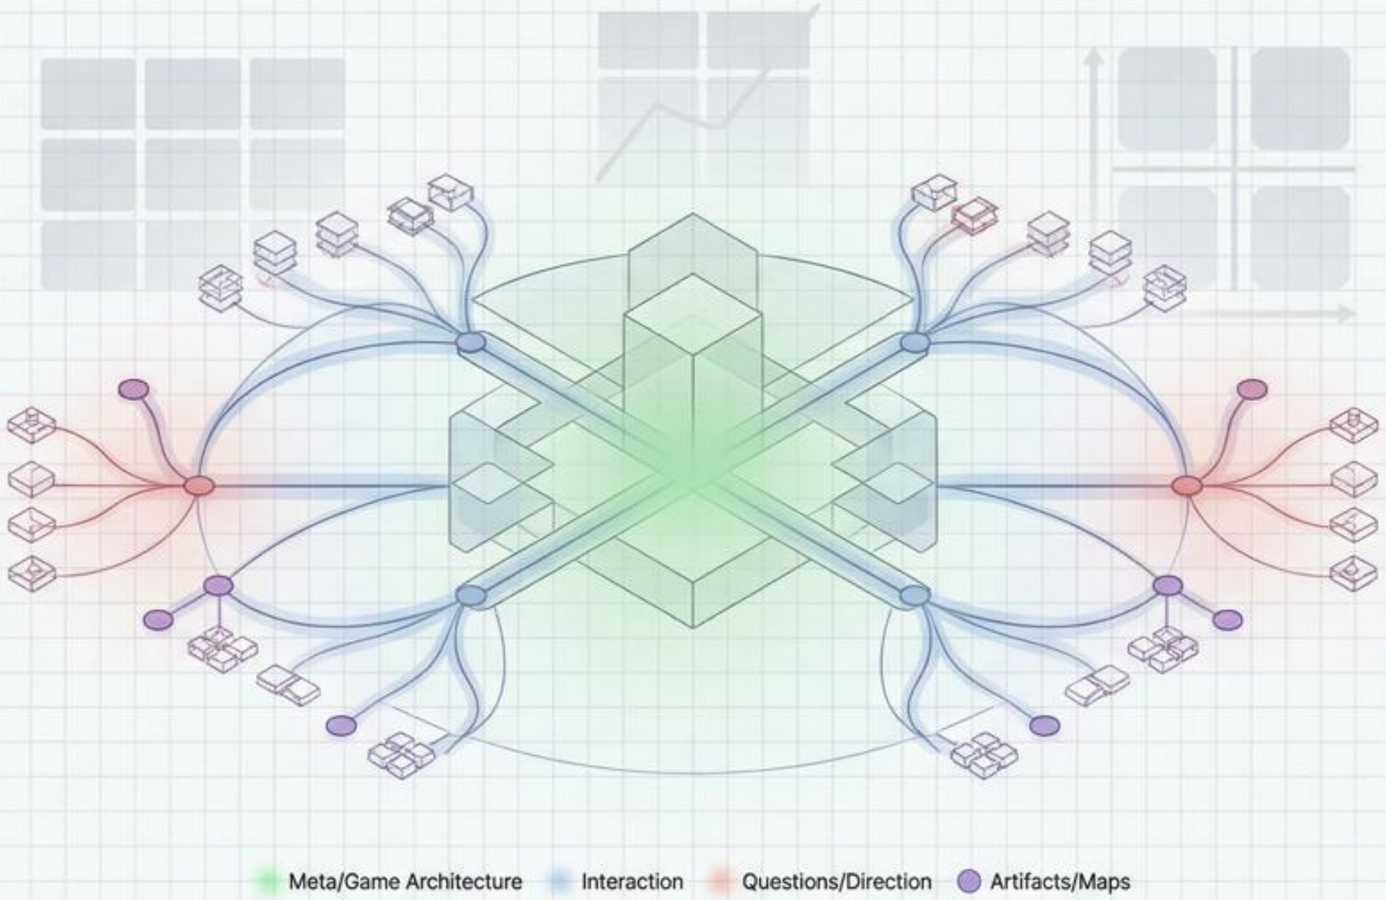
CROWDSURFING

Protocolise Emergence. Distributed coordination for emergent happenings.

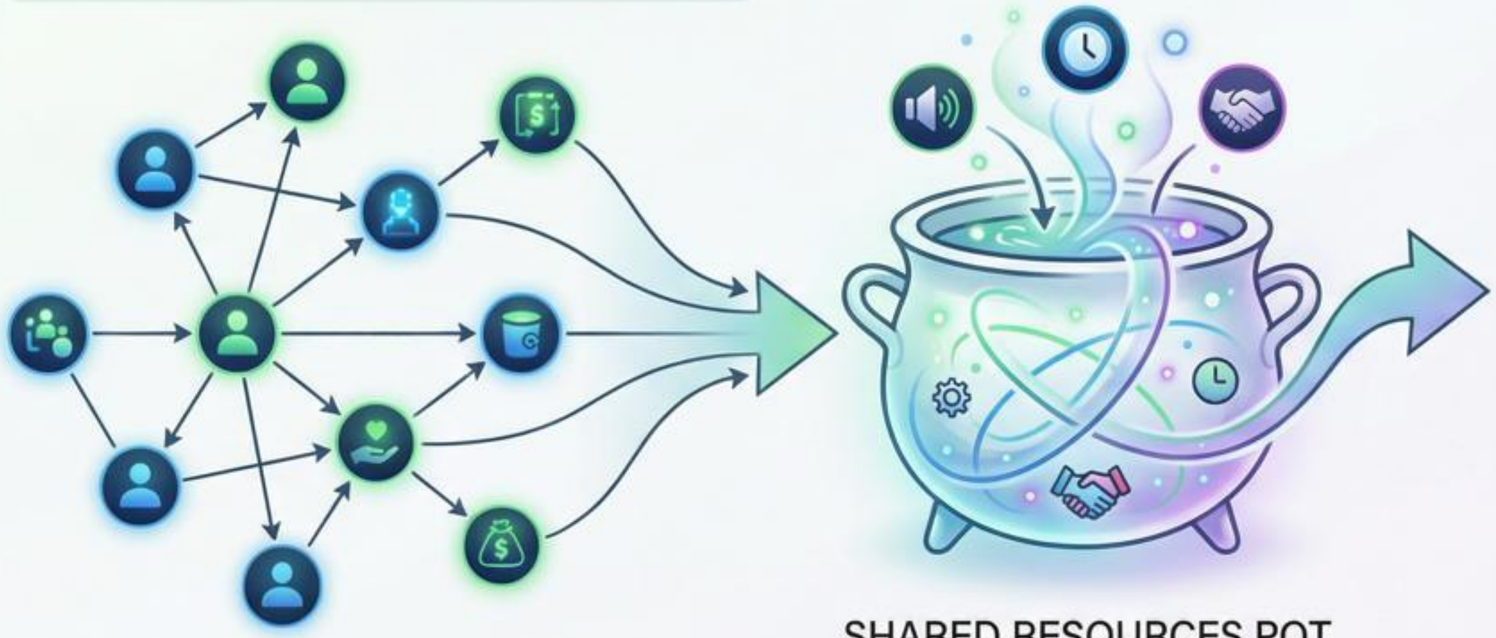


CROWDSURFING: Protocol-izing Emergence

Distributed Coordination for Spontaneous Happenings

FROM INDIVIDUAL LONGING...

...TO EMERGENT HAPPENINGS



Individual Contributors

SHARED RESOURCES POT
(Software Handles the Stirring)

- Spontaneous events without central chefs
- Scaling possibility across dance crews, sports pick-ups, and regenerative scenes
- Avoiding the "Hero Organizer" bottleneck

Meta/Game Architecture | Interaction | Questions/Direction | Artifacts/Maps

DEMURRAGE & COMMITMENT PRESSURE

Time-boxed possibilities: Use it or lose it.

THE COUNTDOWN MECHANISM

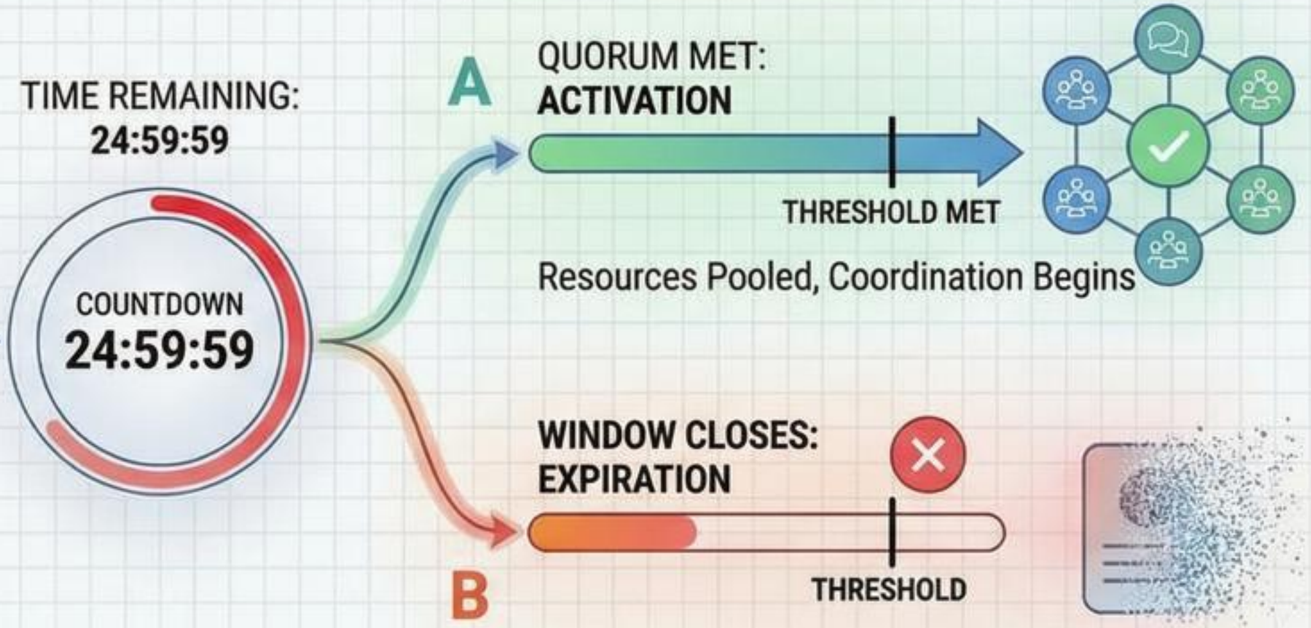
DECLARATION PHASE:
User publishes "I want to..." card.

DEMURRAGE COUNTDOWN:
Timer starts. Idle wishes decay.

COMMITMENT THRESHOLD:
Progress bar for resources/commitment.

KEEPING THE DECK FRESH:
Pushing lurkers toward commitment.

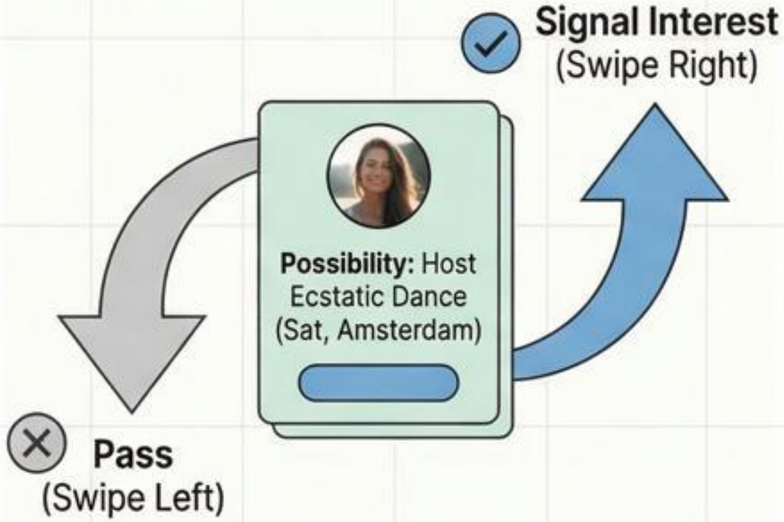
VISUALIZING URGENCY & EXPIRATION



DEMURRAGE DELETES IDLE WISHES

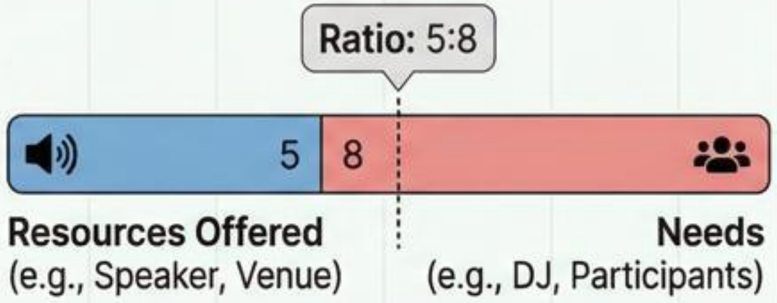
Discovery & Commitment: From Vague Enthusiasm to Concrete Contributions

Tinder-style Surf
(Low-Friction Discovery)



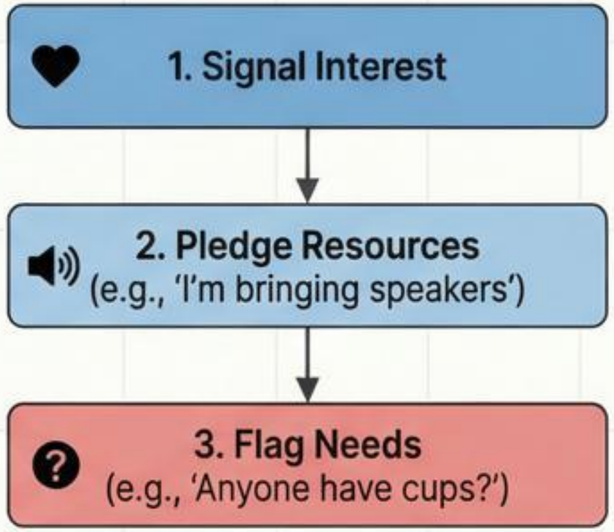
Users surf possibility cards asynchronously. Low friction, high discovery rate.

Progress Bars & Needs:Resources Ratio
(Tracking Quorum)



Turning vague enthusiasm into measured, tangible commitments. Threshold creeps toward activation.

Opt-in Escalation
(Preventing Spam & Scope Creep)



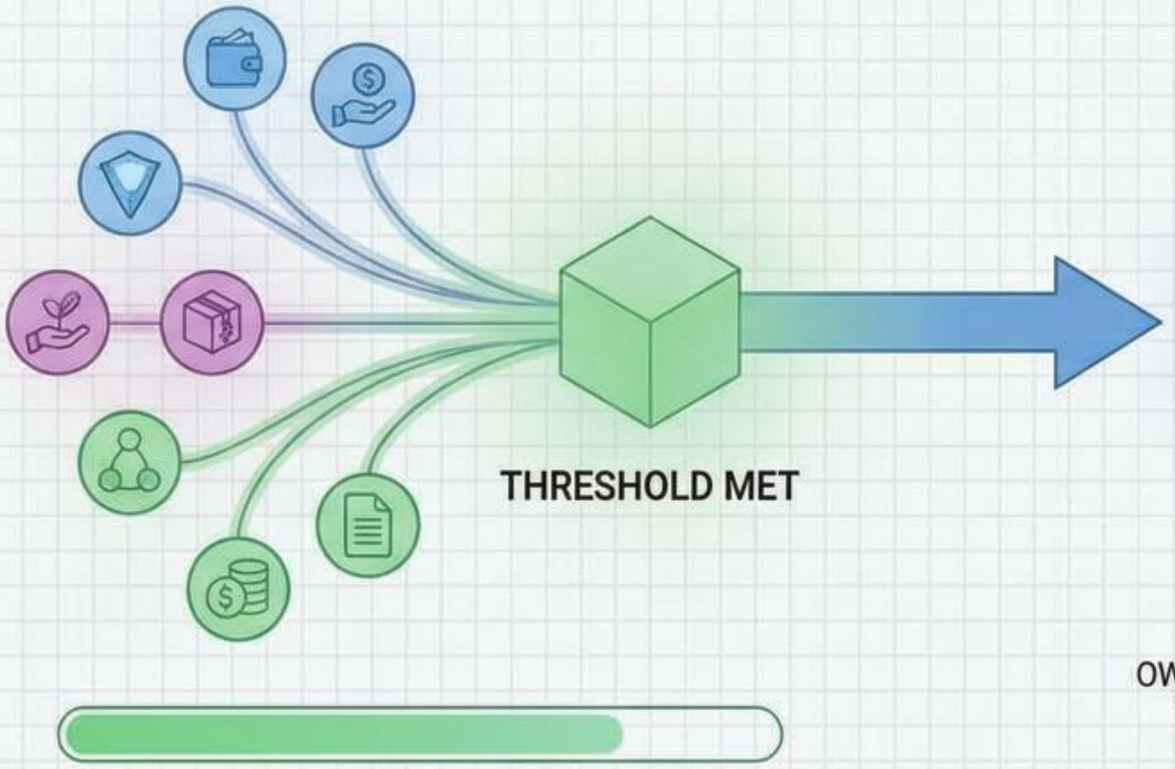
Escalation from passive interest to active contribution. Only committed participants proceed.

Phase 2: Discovery

Cards circulate through mutual networks, surfacing latent DJs, venues and volleyball nets while algorithms highlight matches without exposing personal data until critical mass nears.

QUORUM MET: AGGREGATION TO EXECUTION

Holons spawns a private chat, shifting play from resource collection to action.

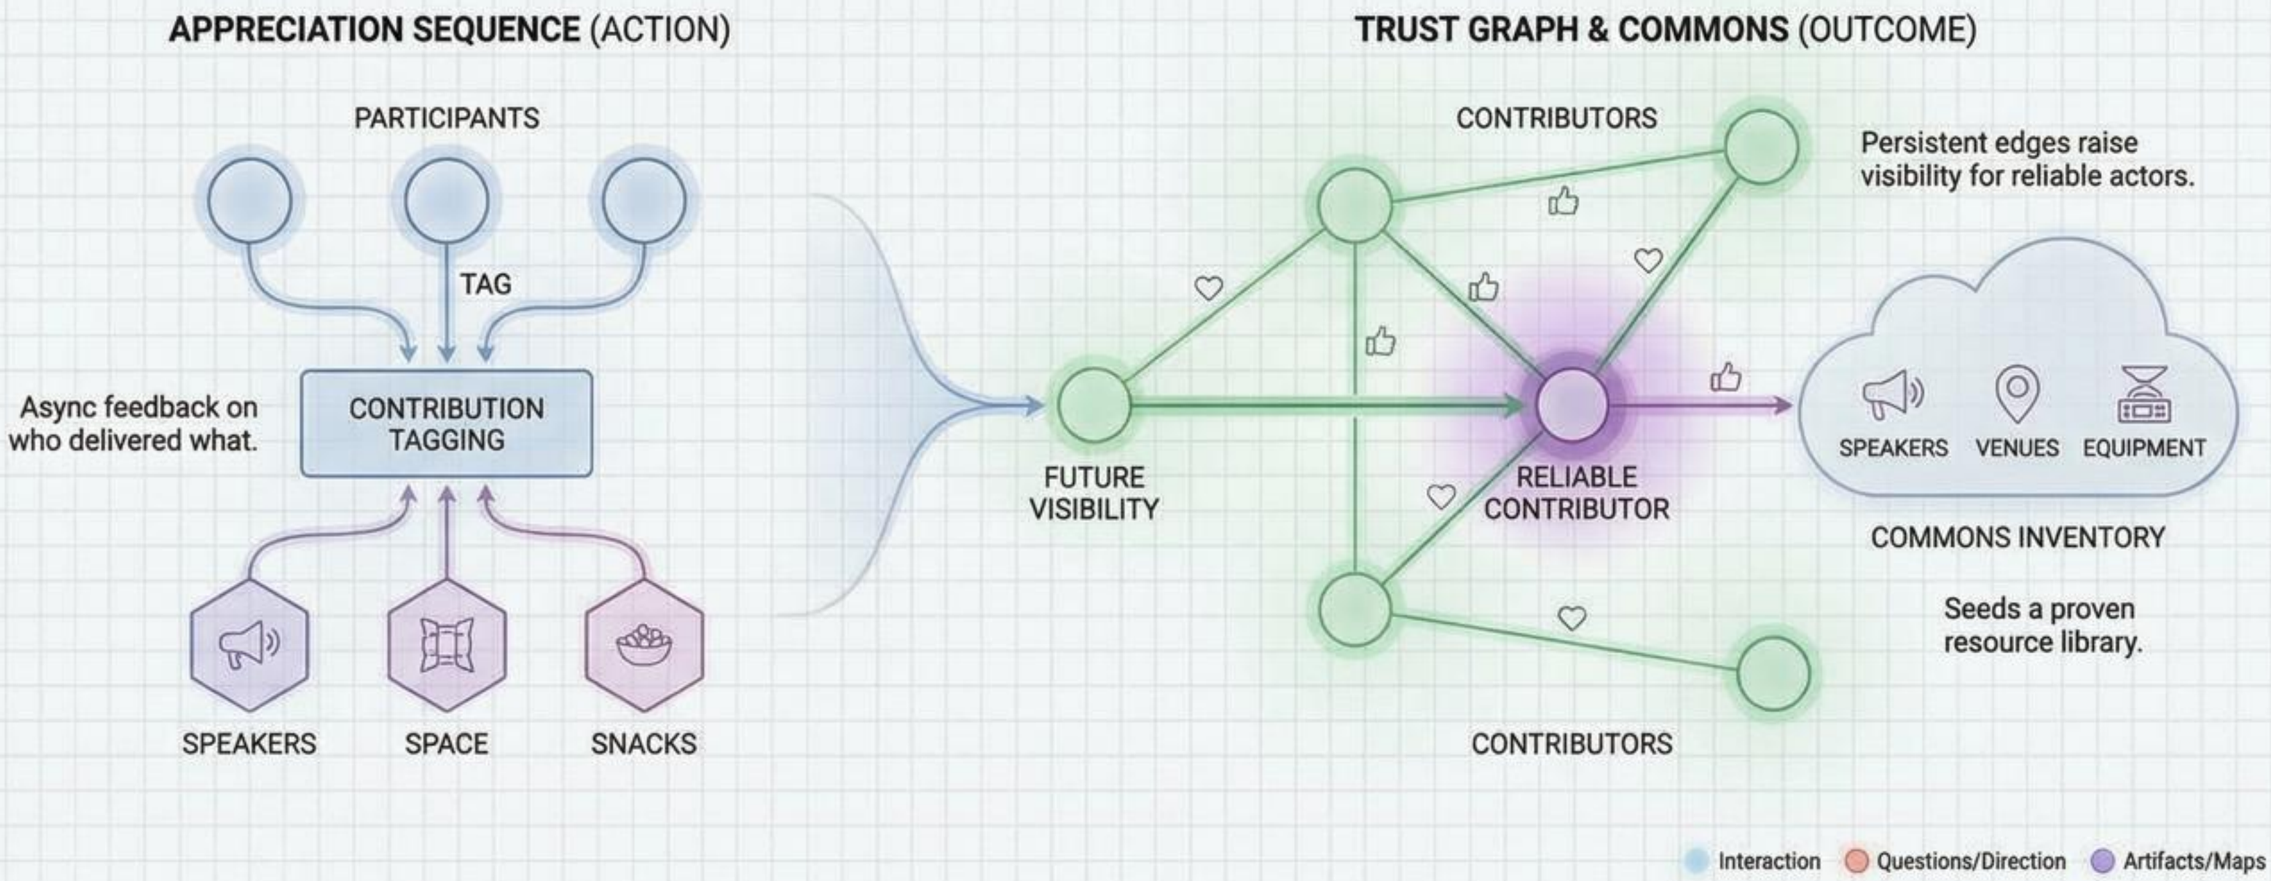


EXECUTION PHASE (HOLONS CHAT)

OWNERSHIP IS ALREADY SHARED. Logistics conversations start halfway done, not at zero.

POST-EVENT RECOGNITION: BUILDING THE TRUST GRAPH

From Appreciation to Persistent Commons and Reputation



TECHNICAL STACK & ARCHITECTURE

GRASSROOTS ECONOMICS POOLS

Declaration & Commitment Layer

DECLARATION
(Possibility)

CONTRIBUTIONS
(Resources)

DEMURRAGE
(Time-Boxing)

Handles asynchronous possibility declarations, resource commitments, and demurrage mechanisms for time-boxed spaces.

Threshold Met

HOLONS

Activation & Group Formation Layer

QUORUM TRIGGER

GROUP FORMATION
(Sync Chat)

Triggers group chat activation for committed participants once the requirements threshold is met, shifting coordination to execution.

Post-Event Data

PLAYNET'S FREE ASSOCIATION

Decentralized Reputation Layer

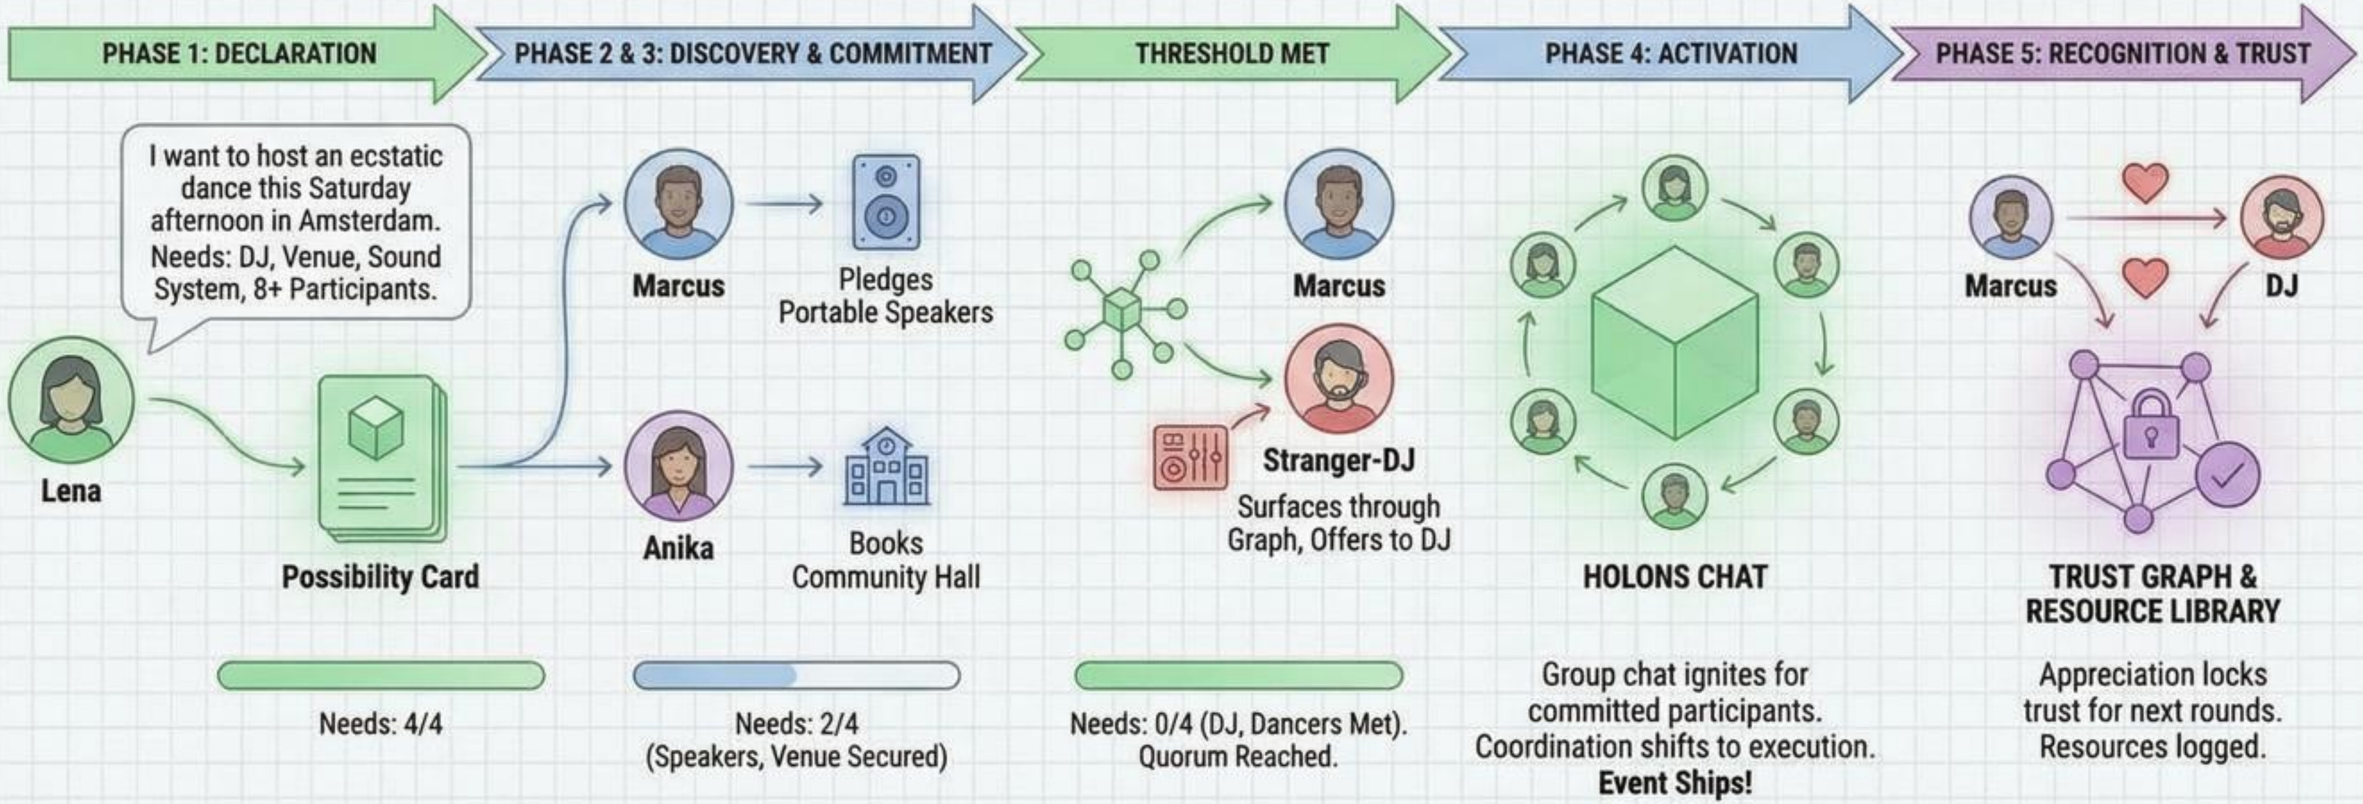
APPRECIATION EDGES
(Relational Trace)

DECENTRALIZED REPUTATION

Stores appreciation signals as persistent edges, forming a decentralized, non-proprietary reputation and trust graph.

EXAMPLE PLAY: CROWDSURFING IN ACTION

Lena's Ecstatic Dance



SCALING STRATEGY: FROM NICHE SCENES TO CIVIC INFRASTRUCTURE

Start with tight scenes where desire exceeds capacity. Prove the pattern, then expand.

PHASE 1: TIGHT SCENES
(PROVE THE PATTERN)

PICK-UP VOLLEYBALL

ECSTATIC DANCE

CLIMATE HACKERS

SHARED CONTEXT & HIGH LATENT DESIRE

THE GROWTH ENGINE
(SUSTAINING MECHANISM)

DEMURRAGE

KEPS INVENTORY FRESH (USE IT OR LOSE IT)

APPRECIATION

KEPS QUALITY HIGH (SIGNALING TRUST)

PHASE 2: EXPANSION
(PORT TO VERTICALS)

MUTUAL-AID NETWORKS

EMERGENCY & COMMUNITY SUPPORT

CIVIC-TECH INITIATIVES

LOCAL GOVERNANCE & INFRASTRUCTURE

SCALED COORDINATION & INSTITUTIONAL INTEGRATION

COLOR CODE: GREEN (META), BLUE (INTERACTION), RED (QUESTIONS), PURPLE (ARTIFACTS)

TRAPS & RISKS

Without critical mass, cards rot (graveyard of unfulfilled desires).

Without genuine coordination, appreciation becomes performative likes (popularity contest).

DESIGN COUNTER-MEASURES

Contextual surfacing (surfacing to the right people at the right time).

Verified contributions (reward follow-through, not fame).

Weighted trust scores (based on actual coordination success).

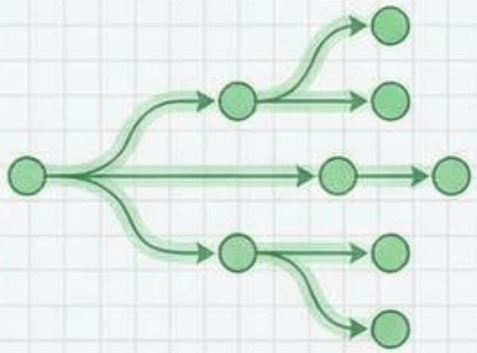
Contextual Surfacing → Verified Contribution → Weighted Trust Score

Reward follow-through and successful coordination to build genuine relational trust.

CALL TO ACTION: Protocolizing Emergence.

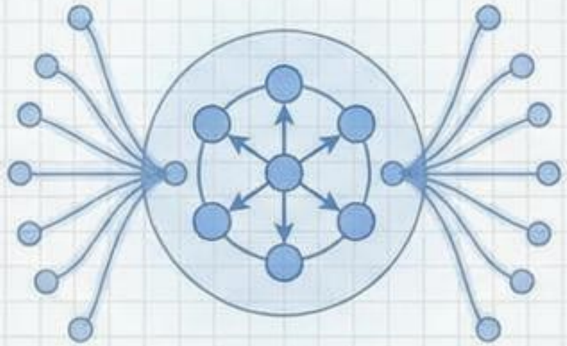
We need partners who believe coordination magic should be reproducible.

PROTOCOL DEVS



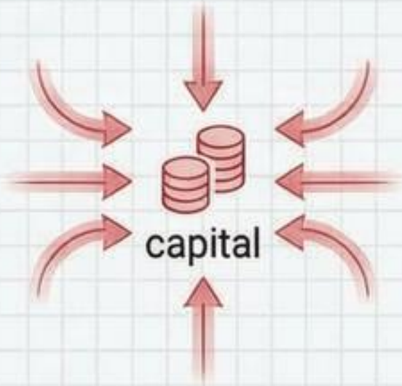
Fork the Repos.
Build the infrastructure.

SCENE STEWARDS



Run a Pilot Circle.
Activate your community.

FUNDERS



Fund the Next Phase.
Accelerate deployment.

DEPLOYMENT ROADMAP

- **DEMO**
- **GRASSROOTS DEPLOYMENT**
- **FESTIVAL SCALE** (This Summer)
